FACT SHEET #2

A Guide to Some of the NDIS Terms

This guide gives explanations for some expressions used when talking about the NDIS. The word list and definitions are also called a glossary. They have been taken and modified from a longer glossary found on the NDIS web site.

The full NDIA glossary, as well as an Auslan version and an Easy English version can be found at <https://www.ndis.gov.au/about-us/glossary>

Choice and control

This is about how a participant has the right to make their own decisions about what is important to them and to decide how and from whom they would like to receive their supports.

Community engagement

Describes the range of ways people are involved in the wider community.

ECEI - Early Childhood Early Intervention

This is providing support early in life to reduce the effects of disability and to improve the person's functional capacity.

Early Childhood Early Intervention (ECEI) Partners

Early Childhood Early Intervention (ECEI) providers are community-based partner organisations to the NDIA. They help children aged 0-6 years who have a developmental delay or disability. ECEI Partners employ ECEI Coordinators who help children and their families access supports and services that are tailored to the child's needs.

Local Area Coordinators (LAC)

LACs are local organisations working in partnership with the NDIA, to help participants, their families and carers access the NDIS. LACs will help participants write and manage their plans and also connect participants to mainstream services and local and community-based supports.

Mainstream services

The government systems providing services to the Australian public e.g. health, mental health, education, justice, housing, child protection and employment services.
